 Whitechapel, London E1

Innovation Centre

LABORATORY / OFFICE SPACE TO LET

52,000 square feet of state-of-the-art innovation space, including containment level 2 laboratories, office and workshops space, for rent within central London.

The Innovation Centre is ideal for existing science and technology companies looking to expand, or start-ups and later stage companies seeking an entrepreneurial base for their London laboratory and commercial work.

QMB

Science is the Heart of Innovation

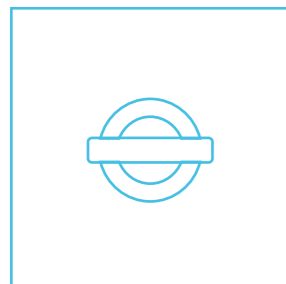

Since its inception in 2011, QMB has created and safeguarded over 500 science jobs within London.

Tenants located at the QMB Innovation Centre can benefit from its central location as well as opportunities to access facilities available at Queen Mary University of London's world-class Faculty of Medicine and Dentistry.

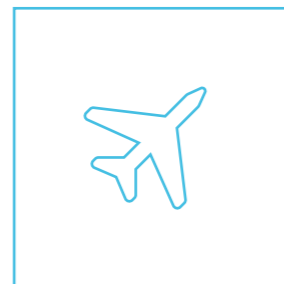

At QMB we support companies of various sizes. The competitively priced CL2 laboratories come in a range of sizes, from 300 to 1,200 square feet, as well as whole floor lettings of up to 14,000 square feet.

To allow easy access between laboratories and office space, we have designed integrated suites housing both laboratory and office space within each modular unit.

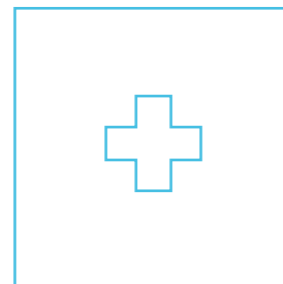

The commercial labs are designed to accommodate both microbiological safety cabinets and fume cupboards, allowing both biology and chemistry work. All services are kept within the ceiling void, enabling for expansion into adjacent spaces, subject to availability.

Excellent transport links via London underground, overground, DLR and Elizabeth line

30 minutes from London City Airport connecting you to Europe

Adjacent to the Faculty of Medicine and Dentistry and The Royal London Hospital

Flexible Lab Spaces

Office & Communal

Access to meeting rooms of variable sizes at tenant rates

Flexible leases

24 hour access model with CCTV security system

Access to Queen Mary University of London facilities and equipment, subject to availability

Access to the 120 seat Clarke Kennedy lecture theatre situated on the lower ground floor, as well as other meeting and conference facilities throughout QMB

Access to networking events hosted at the centre

Full-time on-site maintenance team

65 cycle spaces and shower facilities

Laboratory

Containment level 2 (CL2) laboratories

Fume hood extraction system in ceiling voids for ducted fume hoods

Non-recirculating air regimes, with 8-12 air changes per hour

Flexible laboratory and write-up space configurable to your needs

Chemical resistant Trespa workbenches

3-phase electrical supply

Domestic and soft water

Negative/positive air pressure between the laboratory and write up space

Intelligent lighting system

Emergency powered lifts with built-in extractors for safe transport of gases

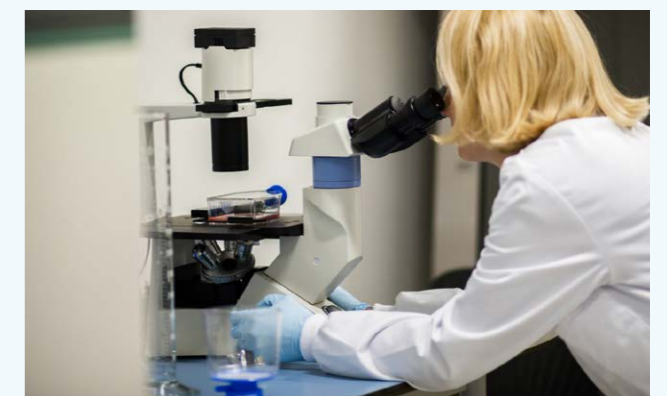

Dewar store for gas storage and fire rated solvent cabinets

Emergency generator for critical equipment e.g. -80 freezers

Facilities room (glass washer, autoclaves, ice machine, and purified RO water facilities)

Fully integrated BMS system to control the internal infrastructure

Our laboratories can be tailored to suit your needs.

Space to Let

First Floor

First Floor – Fully fitted individual CL2 labs & write-up suites

Tenants also benefit from access to a shared kitchen/breakout area and a shared facilities room which includes; glass washer, autoclaves, ice machine and purified water.

Third Floor

Third Floor – Self-contained floor with fully fitted CL2 labs and office space

Premium, self-contained CL2 labs with dedicated office space, designed for flexibility and productivity. Includes breakout area, kitchen, and ample storage. Available as a whole floor, half or individual suite to suit your needs.

CL2 Lab Space - Third floor QMB Innovation Centre

Queen Mary University Enterprise Zone

Queen Mary University Enterprise Zone (QME) is an innovation hub situated within the QMB Innovation Centre, offering flexible, modern workspace for start-ups, with particular focus on Digital Health, MedTech and AI.

Our Mission

We are committed to creating a space and environment for start-ups to work, grow their ventures, collaborate, and pioneer exciting innovations.

Community

Access to training and workshops

A supportive community of science entrepreneurs and experts

Be a part of a community that creates commercial and social impact

Design

Modern, bright and spacious offices with open breakout space

Creative space with plenty of greenery and plants

Workshop space with Trespa tables and concrete floor to accommodate heavy equipment

Tech

High speed fibre internet and Wi-Fi

Access controlled, secure building

Conferencing facilities

Hot Desking Area at Queen Mary Enterprise Zone located in the QMB Innovation Centre
